**FOREWORD**

Selby and District Motor Club are pleased to announce that the THREE SWANS RALLY is running for a 22<sup>nd</sup> year.

Once again we are delighted to retain our event sponsors, TBM Cutters Ltd for a fourth successive year. The rally will again be a round of the ANCC Road Rally Championship and the Classic and Rally Services (CARS) ANEMMC Road Rally championship. For the first time we will be including a category for Historic vehicles and the event will become a round of the ANEMMC historic Road Rally Championships. Also we will be making an award to the highest placed finisher competing in a car complying with the new Endurance Rally specification.

We would like to take this opportunity to thank the ANCC and the ANEMMC, their Championship co-ordinators and competitors for their continued support of our events.

The format of the event has been designed to please expert, novice and "standard car" crews by using straightforward navigation and traditional Yorkshire roads. This year the rally will take place on maps 105 C1 and 106 C1 with a format of 110 miles, to take account of the short nights. There will be approximately 2 miles of "white" roads which can be traversed in a standard road car.

We hope to see plenty of crews competing on what we hope will be an enjoyable night's rallying.

If you can't compete we hope that you will be able to help by marshalling on the night.

Best regards,

The Organisers.

### 14. DOCUMENTATION.

Competitors will be issued with an information pack containing Time Cards, details of Main Time Controls (MTC's), Blackspots and Quiet Zones after they have signed on. As in previous years, further route details will be issued at the start in sealed envelopes, which should not be opened until instructed by the Marshal at the time control indicated on each envelope. This system ensures that:

- Competitors have all the necessary route information.
- The route and event is not disrupted if there is a shortage of marshals.
- Competitors can cut route and re-join at any control (although this incurs penalties).

These documents will provide all the information necessary to enable the competitors to comply with K3.3.1 and K19.

Navigation will be by the use of map references, grid lines, spot heights, other features on the OS map and other diagrams and methods such as tulip diagrams, herringbones and compass directions.

Route instructions may contain the following abbreviations:

GW – Stop and Give Way Y - yellow road, B - brown road, W – white road, LWR - long way round, SWR - short way round, Δ - triangle, this refers to a triangle, typically of grass or gravel and typically at junctions. Thus LWRΔ means long way round triangle. Please do not go LWRΔ unless instructed – in some cases the triangle will be in a Quiet Zone and there will be no RC

NAM / nam – not as map. TC - time control. TTC - transport time control. STC - standard time control. RC - route check. CRO – coloured roads only. This refers to the roads you drive on. Whites may still be used in the navigation. In diagrams, whites are generally shown as dotted lines. "Will use whites" means that you will drive on white roads in places.

**Note on Grid References:** These use the following syntax:

approach direction (if used), reference (6 figures or more where fractions are used), depart direction (if used)  
e.g. NNE 123 ½ 456 ¾ SSW.

Competitors will be identified by rally plates provided by the organisers, which must be displayed on the near side rear window, and on the back of the car.

The Official Notice board will be on display adjacent to signing on at the start until the last car has left when it will be transported to the finish venue.

7

**15. TIMING.**

Schedule Timing will be used. All marshals' clocks will be set to BBC Time. All organiser's times and mileages will be deemed to be correct and not subject to protest. In the event of a timepiece failure, then the control will assume the status of a PC.

**16. PENALTIES.**
